

ARCHITECTURAL
GRATES + DRAINS

65G90

Linear Drainage System

Developed for high capacity drainage needs, providing flexibility in landscape and pool design.

90mm Drainpipe with 65G UPVC Channel.

A 65mm wide UPVC channel is connected via downpipes at 200mm intervals to sockets in a 90mm drain below.

This allows the channel to be installed level while the drainpipe is given sufficient fall to be self-cleaning.

The Special Assembly is then completed with a stainless steel grate from the AR, TR or PS series.

Please be aware that depending on the installation environment, for a pool installation or close to a surf beach, you may need to have your stainless steel grates electropolished.

This unique drainage system was recognised for its innovation by a DesignMark at the Australian International Design Awards.

Please note stainless steel grates to complement this system are separate items

Code 65G90

Range Special Assembly

Category Fixed-Length Units

Channel Material uPVC

SPECIFICATIONS + DIMENSIONS

Channel Width	74mm
Channel Depth	42mm
Length(s)	3000mm
Outlet Size	N/A

PRODUCT APPLICATIONS

Aged / Health Care Drainage	Paved Area Drainage
Balcony Drainage	Special Needs Drainage
Commercial Drainage	Suspended Slab Drainage
Courtyard / Patio Drainage	
Driveway Drainage	
Pool and Spa Area Drainage
