Channels over 3000mm supplied in sections with joiner.
+/-2mm tolerance on dimensions.

120SCSTii20

Shower Screen Support modular drainage kit with standard (1.5mm thickness) Tile Insert (Ti) grate style

The Stormtech 120SCSTii20 is a high-performance single floor drain solution designed specifically for modern wet room bathrooms. Engineered for both residential and commercial applications, this system delivers efficient drainage while supporting minimalist aesthetics and maximisation of functional bathroom and shower space.

A modular kit built for flexibility, the 120SCSTii20 allows for multiple installation orientations, making it ideal for projects with varying layout requirements. The modular shower screen support channel section can be positioned in either a left or right orientation with easy onsite assembly.

The 120SCSTii20 is particularly suited to accessible and universal design applications. It enables step-free shower transitions by eliminating the need for a hob or complex floor grading, helping you achieve compliant, user-friendly spaces with minimal installation complexity.
