

# 65TiTDiS Threshold Drainage

## Product Description

A threshold drain for sill usage only. The 65TiTDiS features a concealed channel section system with an integrated sill suitable for all door track types. It is completed with a premium tile insert drain.

Allows door sills to be drained while having internal and external floor surfaces with no step down.

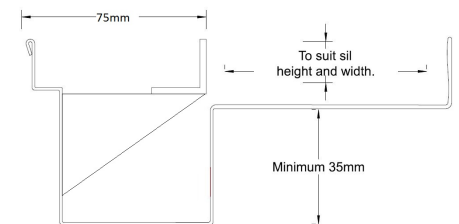

Manufactured from 316 marine grade stainless steel to specific lengths.

Suits tiles up to 12mm thick

## Applications

- Balcony
- Courtyard / Patio
- Special needs
- Suspended slab
- Wet Area Drainage
